

Ramp
HANDMADE GUITARS

"Our passion is to build a bespoke guitar that is tailored to your needs and sound ideas."

Electric Guitars Custom Built by Ramp

Ramp designs and produces handcrafted electric guitars in Germany. Each guitar is manufactured with the greatest care individually on the customer's request. Our guitar models are characterized by unique design and excellent playing comfort. To build the perfect instrument, we set the highest standards in terms of wood quality, workmanship and component.

Before we build an instrument, we clarify the specifications with the customer. Our passion is to build a bespoke guitar that is tailored to your needs and sound ideas. To achieve this, we offer selected tonewood, various neck diameters, fretboard curvature, decorative elements as well as an extensive range of colors and pickups as desired, including electronics.

For more information on equipment, prices and ordering visit rampguitars.com or call **+49 89 6428 2488** or e-mail info@rampguitars.com.
